Subject: RE: Bunker Hill Mine tour

Eric:

Thanks for your willingness to accommodate the tours. We will confirm date and time for the investor tour. For the Basin Commission, I think we'll just do a stop at McKinley Ave. and at one or more other perches to view the construction activities. As stated in my other email on this topic, we will look to Rod to do much of the talking unless you're so inclined for yourself or another Wood Representative to do it. Also, see my other email about the possibility of the busses making a stop at the wall construction area, I've not seen it in a couple of weeks so don't have a feel for how crowded things are but my sense is that there is some room there.

Thanks much,

Ed

Subject: RE: Bunker Hill Mine tour

Ed – Charles Hand will be available to provide a tour to the investor during the week of 8/6.

Regarding the large tour on 8/15, as I noted on the call on Monday, we would like to support that, but don't think that a tour through the site for that many people will work. If we could do an overview of the project in the trailer in two groups (25-35 each), I think that we could accommodate that. How long would the stop at the CTP be?

Subject: Bunker Hill Mine tour

Eric:

The operator of the Bunker Hill Mine has informed me that he will have an investor in town the week of August 6 and would like to schedule a tour of the CTP. I will accompany them but I would like to request your assistance for providing the tour. I don't know much about them but would like to accommodate the request as they enter their capital raising phase.

Please let me know if there any issues with doing so via email. I don't plan to bring this up on the call in the interest of respecting their privacy.

On another note the Basin Commission will be conducting its annual tour of the active projects in the CDA Basin on August 15. We planned on doing the GCS/CTGP site overviews from the perches on McKinley Ave and Galena Ridge development. As an aside, Tom Bourque has reached out to me and is suggesting we get a little more close up and personal with the construction. While that may be very eye opening this will be a rather large group of 2 busloads plus a few cars (50 – 70 people) so is a challenge to manage. Don't feel compelled to allow this unless you feel like it's a good opportunity to show your stuff. We can discuss this more on the call today.
